TRANSFER TO RESERVES

HOTEL OPERATIONS

The Board is pleased to inform that during the financial year 2015-16 the overall revenue of the hotel was higher and with effective cost control & effective working capital management, the Company enhanced its operating performance which has already been highlighted above and in the Management Discussion & Analysis Report.

The Board is pleased to inform you that during the financial year 2015-16 the total revenue of the company has increased to Rs.8,994 lakhs as compared to Rs.7,177 lakhs in the previous year. However, the hotel revenue has moderately increased. The profit after tax for the year is Rs.3,340 lakhs during the financial year 2015-16 compared to Rs.2,501 lakhs during financial year 2014-15. This increase has been mainly on account of 'other income' during the financial year. On the whole, the overall performance for the year has been higher with effective cost control, other segments & business and increase in business due to intensive efforts of marketing network. The Company has been able to retain market share through conference on business summits, out-door catering and also continuing in its leading position in wedding related business in the city. This success has been achieved despite new entrants into the hospitality business, and/or expansion in the existing ones. As a result, during the year, new supply has hit the market with increasing inventory of rooms thereby reflecting an increase of 50% of inventory in the 5 star and 5 star deluxe segments in the city and is situated right in the middle of the Company's key corporate catchment areas. To make the matter worse, there has been acute competition due to variable discount factors offered by many of the members of the hotel industry.

FUTURE PROSPECTS

The future of the hotel industry is facing tough times ahead in view of cost cutting measure initiated by the corporate companies in the sluggish economy prevailing worldwide. Further availability of video conferencing and convenient airline facility are enabling the business traveler to skip room bookings. In addition there is substantial increase in supply side of the five star hotels in Bengaluru resulting in low occupancy and undercutting of rates. However, the Company is striving hard to get more business through various marketing initiatives.

FINANCE

During the year under report, the financial position of the Company has been strengthened despite the moderate increase in Hotel business. The Company's diversification into electricity generation through Wind Turbine Generators and other sources of income from investments have helped pushing up the bottomline and the Company is able to show higher net profit after income tax. The segment performance is furnished elsewhere in the Annual Report.

DIVIDEND

As you aware, the interim dividend of Rs.10 per Equity Share for the financial year ended March 31, 2016, amounting to Rs.13,10,10,520/- was paid to the shareholders on 25th February 2016. Hence your directors have not recommended final dividend for the financial year ended as on 31st March 2016.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

Your Company has been reporting consolidated results taking into account the results of its subsidiary. This discussion, therefore, covers the financial results and other developments during April, 2015 to March, 2016. Some statements in this discussion describing the projections, estimates, expectations or outlook may be forward looking. Actual results may, however, differ materially from those stated on account of various factors such as changes in government regulations, tax regimes, economic developments within India and abroad, exchange rates and interests rates fluctuations, impact of competition, demand and supply constraints.

OVERVIEW OF THE GLOBAL & INDIAN TOURISM INDUSTRY

The hospitality industry in India is showing a slow but steady revival in the sector. The change of government at the Centre has improved the business sentiment. However, it seems the part of the positive sentiment comes from discounted room rate. With competition becoming fierce, some top hotels are offering deep discounts at their F & B outlets to boost sales. Another factor that has led to discount is increase of external competition from standalone restaurants which is making hotels revisit pricing strategy. In Bengaluru several new restaurants have been mushroomed in the city and so, in order to offer a better value to customer, hotels are offering a better package of facilities. In this complex situation, hotels will have to focus on deriving revenue from all fronts-room, F&B, conference and events which will help in deriving higher profitability. This will help the hotel to derive high profitability. It is expected Indian leisure tourist to begin travelling in destination for reasons other than to visit friends or relatives and therefore to stay in more hotels. To prepare for the increase in Indian tourist, hotels have to provide safety & security and variety of things to do and see the overall image of the destination, good tourist facility and infrastructure. Given the current demand, supply dynamics, stable political situation and the likelihood of overall economic growth, the Indian hospitality sector is on the cusp of a much expected growth trajectory. As the airline fares to Bengaluru are comparably higher it is not likely to be on top of the leisure destinations favorites. The outlook for Bengaluru is further complicated by reason of an addition of minimum 450 keys by the end of the financial year 2015-16 which is a supply surplus far bigger than the expected growth of the market and will bring average rates more under pressure. Long term outlook with over 500 keys to be added in the coming 3 years does not foresee a change in this trend. It is therefore important that the existing hotels ensure that their product and services are utmost competitive.

In the last few years, the Indian Hotel Industry has been facing weak demand and an excess supply of rooms caused by optimism about the Indian growth story prior to 2008. This has led to new hotel openings by Indian and International hospitality brands. However, due to the economic slowdown, supply outpaced demand, suppressing Average Room Rate (ARR) and reducing occupancy. As we look to the future, the Travel and Tourism industry has globally emerged as one of the fastest growing sectors, contributing significantly to economic growth and development. The World Travel and Tourism Council (WTTC) estimates that the contribution of travel and tourism to the Indian GDP will be 7.7% in 2015. This is expected to grow by 7% p.a. reaching INR 14,000 billion by 2024. India has potential to become a preferred tourist destination globally. The long term outlook for the Indian hospitality industry continues

to be buoyant with growth outperforming the general economy. Inbound tourism continues to have modest growth of international tourists arrival and receipts. However, the domestic market will see strong growth with more Indians travelling, resulting in an expected revenue growth of 8.2% in the financial year 2015-16. The tourism sector in India faces several issues that needs to be addressed for the sector to realize its true potential. Visa on arrival from key markets in Europe and America, safety and security of tourists, specially women, infrastructure development, identification of new tourist destinations and regulatory and policy changes need attention from all stakeholders.

Recently, the Government of India announced a proposal to extend a visa on arrival scheme (VOA) for visitors from 180 countries. A proposal for an electronic travel authorization system will allow foreign travelers to apply for a visa electronically and receive an online confirmation in five working days has also been cleared. Presently, the VOA scheme is available to tourists from eleven countries, mainly from South East Asia and two European countries. Since its introduction, there is a continuous and significant growth of tourists arrivals reconfirming the need to quickly extend this facility to the identified 180 countries. According to a study undertaken by WTTC and UNWTO, these improvements in the Visa regime could result in upto 6 million more international visitors travelling to India resulting in corresponding growth in revenue and creating 1.8 million jobs over three years.

OUT LOOK, OPPORTUNITIES, THREATS, RISKS & CONVERNS

Hotel industry in India has huge staff turnover, Rising staff & utility costs, staff retention & guests satisfaction are the major concerns of the hotel industry in India. There is a risk that the elements of Indian Hotel market may move into over supply at least in the short term. Delivering the brand experience consistently at a transparent price point will be vital to success. The benefit of loyalty program will continue to be a key differentiation for the consumer. Hotels have to realign their expenditure, optimize opportunal and efficiency and adopt flexible business model. They have to provide new facilities in the existing properties, stylish bars and other F & B outlets, free hotel-wide-Wifi connection to customers plus fitness areas besides offering discounts announcing happy hours and free wine testing events to leisure travelers. Despite all these profitability will continue to remain a concern with high operational and debt costs.

With a dynamic government at the centre and focus on infrastructure development, the travel and tourism industry is expected to receive a major boost. The Le Meridien group, with its globally acclaimed hotels, world class services and strong brand identity is ideally poised to take advantage of these opportunities.

REVIEW OF FINANCIAL & OPERATIONAL PERFORMANCE

During the year under report, the global economic turmoil especially in the western countries and political turmoil in the Middle East have caused precedented recession and job losses all around the world. The Indian economy too suffered heavily with lower export of goods and services. The Indian IT and BPO business is languishing. Hospitality industry too is badly affected pushing the room occupancy and average room rate significantly lower levels.

Hence, sales turnover of the Company has increased from Rs.7,177 lakhs to Rs.8,994 lakhs as compared to the previous year. The profit

before income tax has substantially increased from Rs.3580 lakhs to 5097 lakhs during the financial year. During the year under report, the hotel business is hit by the entry of new five star hotels in the city of Bengaluru resulting in stiff competition. Hence, it will be difficult to improve the working results in current financial year.

SEGMENT WISE PERFORMANCE

RISK AND CONCERNS

Industry Risk

General Economic Conditions:

The hospitality industry is prone to impact due to fluctuations in the economy caused by changes in global and domestic economies, changes in local market conditions, excess hotel room supply, reduced international or local demand for hotel rooms and associated services, competition in the industry, government policies and regulations, fluctuations in interest rates and foreign exchange rates and other social factors. Since demand for hotels is affected by world economic growth, a global recession could also lead to a downturn in the hotel industry.

Socio-Political Risks:

In addition to economic risks, your Company faces risks from the socio-political environment, internationally as well as within the country and is affected by events like political instability, conflict between nations, threat of terrorist activities, occurrence of infectious diseases, extreme weather conditions and natural calamities, etc., which may affect the level of travel and business activity.

Company Specific Risks:

The Company specific risks remain by and large the same as mentioned hereinabove. Further, being a single hotel it cannot have effective marketing leverages. The industry in general has a high operating leverage which has further increased with on-going

renovations and product upgrades. However, the Company is by and large a debt free Company.

RISK MITIGATION INITIATIVES

Your Company employs various policies and methods to counter these risks effectively, as enumerated below:

Your Company has implemented various security measures at its property which inter alia include screening of guest's luggage, installation of security bollards & metal detectors, etc. to counter the security risk.

By extensively improving its service standards, as also renovating and repositioning all its key outlets, your Company counters the risk from growing competition and new properties. Further, it gains operating and financial leverage, by diversification of business activities and leveraging the strengths of its high reserves.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Internal information systems ensure smooth information flow to facilitate proper control. Adherence to the systems is then validated through the process of internal audit. The Company has adequate system of internal audit control to ensure that all the assets are safeguarded and protected. Regular internal audits are conducted by the professional Chartered Accountant firm and reports submitted by these Internal Auditors are periodically reviewed by the Audit Committee of the Board. The findings and compliance/s are reported to the apex level management on a periodic basis. The Company has constituted an in-house Committee for timely implementation of internal audit recommendations. ANNEXURE B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (1) of sub section 3 of Section 143 of the Companies Act, 2013 ('the Act').

We have audited the internal financial controls over the financial reporting of MAC CHARLES (INDIA) LIMITED ("the Company"), as of 31 March 2016 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over the financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act 2013.

Auditors' responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("the guidance note") and the standards on auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those standards and the guidance notes require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial control over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and its operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining and understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide the reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transaction and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management, override of control, material misstatement due to error or fraud may occur and not be detected. Also projection of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risks that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the guidance note on audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE TO THE AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (1) of sub section 3 of Section 143 of the Companies Act 2013 ('the act')

We have audited the internal financial controls over the financial reporting of MAC CHARLES (INDIA) LIMITED ("the Holding Company"), as of 31 March 2016.

Managements's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over the financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our report. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("the guidance note") and the standards on auditing, issued by ICAI and deemed to be prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those standards and the guidance notes require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial control over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and its operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining and understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for audit opinion on the company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial controls over financial reporting is a process designed to provide the reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with generally accepted accounting principles. A Company's internal financial controls over financial reporting includes those policies and procedures that :

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transaction and dispositions of the assets of the Company ;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the Inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management, override of control, material misstatement due to error or fraud may occur and not be detected. Also projection of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risks that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degrees of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company has, in all material respects,

an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the guidance note on audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountant of India.

Defined Benefit Plan

The employee's gratuity fund scheme managed by a trust is a defined benefit plan. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee entitlement and measures each unit separately to build up the final obligation. The obligation for leave encashment is recognized in the same manner as gratuity.
